## For Immediate Release:

### **PREMIER FACILITY MANAGEMENT JOINS NEW JERSEY GREEN ASSOCIATION**

**MONTVILLE, NJ, November 18, 2011** – The New Jersey Green Association (NJGA), a non-profit organization committed to sustaining of the environment within the state of New Jersey, announced that Premier Facility Management, Wayne, NJ has become the latest member to be added to the association’s growing roster of green members.

Premier Facility Management (PFM) has a 15-year track record of designing sustained green programs. Using compiled data PFM has helped its clients achieve reduction of their carbon footprint. Their programs have saved clients thousands of dollars in waste costs, created revenue streams, and enhanced global responsibility.

PFM can customize and design innovative solutions to meet today’s market demand and keep-it-green. PFM has sustainable by-product marketing, surplus material exchanges and global outlets for recyclables, And they maintain a highly reputable track record of donating re-usable items to charity organizations since 1987. PFM employs a full staff of application engineers that have the experience to design, install and maintain all waste handling equipment, which compliments the recycling program and maximizes material market value. Premier Facility Management understands the need for environmentally sound programs that will reduce operating costs while increasing bottom line revenue.

NJGA Executive Director, Allan Fliss, said, “We are excited about the addition of PFM to our association. Their experience and expertise in designing sustained green programs will be a tremendous asset to our present and future members. I really look forward to their contributions to NJGA to help us grow.”

The New Jersey Green Association is a non-profit organization committed to the improvement and longevity of the environment within the state of New Jersey. The Association is comprised of senior representatives from environmentally friendly industries, academic institutions and state government organizations, dedicated to the preservation and maintenance of our environment.
