FOR IMMEDIATE RELEASE

Premier Facility Management Recognized as a New Jersey Sustainable Business

Small businesses across New Jersey are starting to save money, share their successes and inspire other businesses by implementing sustainable business best practices. Joining this list of small businesses, **Premier Facility Management** located in Woodland Park, New Jersey, became one of the first businesses in the state of New Jersey to be recognized as a **New Jersey Sustainable Business**.

In August of 2014, the New Jersey Small Business Development Centers (NJSBDC) launched the **New Jersey Sustainable Business Registry**. The registry is an Internet site where businesses that have implemented sustainable business practices can register their achievements and be recognized.

Premier Facility Management achieved recognition for continuously making attempts - no matter how big or small to reduce their carbon footprint, become a much more sustainable company as a whole, and promoting all "**Green Friendly**" **alternatives** during their day to day operations. Their efforts with changes such as their HVAC, lighting, water and recycling waste resulted in the reduction of 30% of their costs.

Premier has worked with numerous companies, partnering to help them achieve sustainability such as a perfumery Premier assisted recycling 211 individual 55-Gallon Drums (11,605 gallons total) of rejected liquid. Premier also began working with federal government (GSA) agencies in a sustainable disposable program. The first project was with confiscated mattresses that were targeted to be landfilled. PFM located a company that de-manufactured the mattresses and used the components to build low-grade/cost mattresses.
